EXPERIENCE

NOV 2023 – FEB 2024

Flutter Developer Intern | ManiWebify Private Limited | Saddar, Rawalpindi

I was an integral part of the Flutter development team where I had the opportunity to work closely with experienced developers and gained insights into the process of publishing applications on Google Play Console. During my tenure, I contributed to the following projects:

- **Easy Social Connect**

  An app allowing users to reach out to their WhatsApp contacts without the need to save their numbers. Developed front-end, and used third-party API of WhatsApp.

- **Dawat Ul Khair**

  I contributed to the front-end development of a live guide app to Islam featuring daily prayers, thought-provoking articles, and fostering community connections.

- **Saim Shopping Mall**

  I played a significant role in modifying code and enhancing UI through the front-end development of a live online grocery app.

JUN 2024 – PRESENT

Junior Flutter Developer | Codesteem Solutions Pvt. Limited | Muslim Town, Lahore

I am an integral part of the Flutter development team, collaborating with experienced developers to design attractive and responsive UIs for multiple apps, write clean code, integrate REST APIs, and use Firebase as a backend. Currently, I am working on the following project:

- **Second Phone Number**

  An app that allows users to conveniently acquire a second phone number for their personal needs without requiring an extra SIM card. This app also enables international calling and texting. Developed UI for this app and integrated REST APIs.

PERSONAL PROJECTS

- **House2Home Mobile App (Flutter)**

  Final Year Project: Cross-platform rental property finder with user authentication, search for houses, house recommendations, and real-time conversation between users. We utilized Flutter for UI and Firebase for the backend and the database.

EDUCATION

OCT 2020 – JUN 2024

PMAS Arid Agriculture University, Rawalpindi

Bachelor of Science in Software Engineering
